Circuit Breakers

Zbreaker is the same circuit breaker now found on many high-end transformers and systems. It protects from damage caused by shorts, overheating, or wiring problems.

A sticker is included so that, if the Tech desires, he can inform his customer where to press the "reset" button and possibly save a midnight service call. Kit includes wires and pre-installed terminals that allow you to easily plug it in to the connectors where a plastic-type fuse existed.

08574   **08575**

• Crystal-Clear Clamshell Package with Hanging Hole

• Full-Color Insert with Instructions

MARS NO.	DESCRIPTION	MARS PACK
08574	3 Amp Circuit Breaker	1
08575	5 Amp Circuit Breaker	1

I-T-E® EQ® Load Center Enclosures

SIEMENS
I-T-E® Electrical Products

I-T-E EQ® load centers with main lugs feature a combination trim boxed in one package.

• The trim fits both surface and flush mounting applications saving money and space

• Interiors offer removal in seconds

• Single phase, 3-wire design, 120/240 VAC

• One piece Albus bar construction. Designed for use only with I-T-E circuit breakers. UL listed

• Rated for 100,000 A IR

83271

• Exclusive split neutral

• Main lugs and neutral on same plane, same drive

• Simple upper pan adjustment after trim is installed

• UL listed for 60/75 °C conductors

• 100% circuit breaker twistouts

• Indoor and outdoor enclosures available

MARS NO.		DESCRIPTION	MARS PACK
83271	60a-2 pole	4 circuit, surface branch panel - type 1	1
83273	125a-4 pole	8 circuit, surface branch panel - type 1	1

Outdoor Enclosures - Type 3R

• Single phase, 3 wire SN

• 120/240V

• Uses HA type hub

83277

83277	60a-2 pole	4 circuit, outdoor enclosure	1
83278	125a-4 pole	8 circuit, outdoor enclosure	1

Cartridge Fuses, Type TRS

MERSEN

SmartSpot blown-fuse indicator

With SmartSpot you'll find the open fuse FAST. When a fuse opens, the SmartSpot indicator on the label of the fuse senses it and turns from SILVER to eye-catching RED.

And it stays RED so you can spot the open fuse quickly and safely.

Just open a panel and scan. Wherever you see any red in a SmartSpot indicator, you know the fuse is open.

This is a big advantage to contractors/service personnel because it helps them to identify very quickly what fuse needs to be changed thereby avoiding costly downtime.

You'll find SmartSpot on all of the most widely used industry standard fuses such as Class RK5, RK1, and Class J.

Time delay (class RK5, 600 volt)
