BIOFILM REMOVER™ INSTRUCTIONS

Turn off all power to the system

Remove panel of the air handler revealing evaporator coil and drain pan

**If drain line is clogged, vacuum/blow out drain line before continuing

Vacuum and wipe out the drain pan and p-trap, if applicable, creating a clean/dry surface

Shake product well

Spray product evenly and fully onto bottom coils, drain pan surface, drain line, & any surfaces where water would come into contact

Allow product to sit for 10 minutes before turning the unit back on

Retreat every 6 months or as needed for best, long-lasting results

**Drain line application guide: Place vacuum at the end of the drain line. Spray product into opposite end of the drain line and allow suction to pull product through the drain line for a full coverage application.

**CAUTION: MILD IRRITANT-DO NOT INGEST.
KEEP OUT OF EYES, KEEP AWAY FROM CHILDREN.
EMERGENCY-CALL 1-800-255-3924 24 HOURS
